

THE EVANGELICAL SISTERHOOD OF MARY

Canaan of God's Comfort

Reference

We have been in contact with Neil Byden and Paul Salafia of Get Smart Security and Data Company for approximately 2 years. During that time they have helped us with a variety of needs and problems concerning security, computers and telephones. In each case they have shown themselves to be reliable, honest and trustworthy in all their dealings. Whatever the need or problem, they think it through with care and expertise, each time coming up with practical, innovative and cost-effective solutions. Moreover, they stick to their quotes and time schedules and follow everything up with prompt, professional service.

The staff of Get Smart Security and Data are considerate, personable and easy to work with, often going "the extra mile" to provide the best service possible. They live up to the highest standards of integrity, excellence and technical quality. We can rely on them and cannot recommend them more highly.

Sincerely yours,

Sister Simone
